

Arogya Shield

Residential Care Services Pvt. Ltd.

Member Policy Handbook

Version 3.2 — Effective 1 April 2026

Arogya Shield Residential Care Services provides round-the-clock emergency medical response, paramedic support, and preventive health services to residents of registered gated communities in Hyderabad. This handbook describes membership plans, emergency response commitments, refund and cancellation rules, and grievance procedures applicable to all members.

This is a fictional document created for educational demonstration purposes. Any resemblance to a real organisation is coincidental.

1. Membership Plans and Pricing

Arogya Shield offers three membership tiers. All prices are per household per month and include Goods and Services Tax.

Plan	Monthly Fee	Included Services
Shield Basic	₹1,200	Emergency response, ambulance dispatch, 1 free home nurse visit per month
Shield Plus	₹2,900	Everything in Basic, plus quarterly full-body vitals screening and 24×7 tele-doctor line
Shield Premium	₹4,800	Everything in Plus, plus a dedicated on-call paramedic and 4 physiotherapy sessions per month

A one-time enrolment fee of ₹999 applies to all plans and is waived for communities with 200 or more registered households. Senior citizens aged 70 and above receive a 15 percent discount on the Shield Premium plan.

Physiotherapy sessions included with the Shield Premium plan must be used within the applicable billing month. Unused sessions cannot be carried forward, transferred to another household, or converted into a cash benefit.

1.1 Billing Cycle

Membership fees are billed on the 5th of every month. A grace period of 10 days applies, after which services are suspended until payment is received. Reactivation after suspension carries a fee of ₹250.

2. Emergency Response Commitments

Our response commitments below apply to all membership tiers within registered community premises.

- First responder at the resident's door within 8 minutes of an emergency call.
- Advanced life support ambulance on site within 15 minutes.
- Handover to a partner hospital emergency department within 40 minutes for critical cases.

Every registered tower is equipped with one automated external defibrillator (AED) placed in the ground-floor lobby, inspected on the first Monday of every month.

2.1 Partner Hospitals

Critical patients are transported to the nearest partner hospital. Current partners are Sunrise Multispeciality Hospital (Gachibowli), Lotus Heart Institute (Madhapur), and Vishwas General Hospital (Kukatpally). Members may register one preferred hospital, which is honoured whenever the medical situation safely permits.

2.2 Night Helpline

A dedicated night helpline operates from 8 PM to 8 AM on 1800-4032-777 for non-critical medical guidance. During daytime hours, members should use the standard helpline listed in Section 7.

3. Enrolment and Onboarding

Enrolment is open to all residents of registered communities. Each household must complete a health profile for every family member within 14 days of enrolment. The profile records blood group, allergies, chronic conditions, current medications, and two emergency contacts.

3.1 Health Profile Updates

Members must update health profiles within 7 days of any significant change such as a new diagnosis, surgery, or change in medication. Outdated profiles can delay treatment decisions during emergencies.

3.2 Community Registration

A gated community becomes a registered community when at least 50 households enrol and the resident welfare association signs the standard service agreement. Registration includes a joint safety audit and the installation of emergency signage at all tower entrances.

4. Refund and Cancellation Policy

4.1 Eligibility for Refunds

Members may claim a refund of membership fees in the following situations:

- Cancellation within the first 30 days of a new enrolment (full refund of monthly fees paid; the ₹999 enrolment fee is non-refundable).
- Permanent relocation outside all registered communities, with proof of address change (pro-rata refund for unused full months).
- Documented service failure, meaning a response time exceeding twice the committed limits in Section 2 (refund of that month's fee).

Refund claims must be submitted through the member portal or in writing at the community service desk. Claims made verbally, including over the helpline, are not treated as formal refund requests.

Note: the approval process and payment timelines for eligible refund claims are described in Section 4.2 on the following page.

4.2 Approval and Payment Timeline

All refund claims require approval by the Regional Operations Manager within 7 days of submission. If no decision is communicated within 7 days, the claim is automatically escalated to the Head of Member Services, who must decide within a further 5 working days.

Approved refunds are credited to the member's original payment method within 10 working days of approval. Members receive an SMS and an email confirmation with a refund reference number at each stage.

4.3 Cancellation Without Refund

Members may cancel at any time from the member portal. Cancellations outside the situations listed in Section 4.1 take effect at the end of the current billing month and no refund is issued for that month. Re-enrolment after cancellation is treated as a new enrolment.

5. Care Staff Policies

5.1 Staffing Standards

Every registered community is served by a resident care team consisting of at least one certified paramedic and two trained emergency responders per 300 households. All care staff complete a 120-hour certification program before deployment and a refresher course every 12 months.

5.2 Staff Leave Entitlement

Care staff employees receive 18 annual leave days per calendar year, in addition to 12 sick leave days and public holidays as notified by the Telangana government. Leave for emergency response staff is scheduled so that minimum staffing levels in Section 5.1 are always maintained.

5.3 Code of Conduct

Care staff may not accept cash gifts from members. Members wishing to appreciate staff may contribute to the annual Care Staff Welfare Fund administered by the resident welfare association.

6. Grievance Redressal

Complaints may be raised through the member portal, the mobile app, or the community service desk. Every complaint receives a ticket number within 4 working hours. Standard complaints are resolved within 3 working days; complaints involving clinical care are reviewed by the Medical Advisory Board and resolved within 15 working days.

7. Contact Directory

Purpose	Contact	Hours
Medical emergency	1800-4032-108	24 × 7
Night helpline (non-critical)	1800-4032-777	8 PM – 8 AM
Daytime member helpline	1800-4032-222	8 AM – 8 PM
Billing and refunds	billing@arogyashield.example	Working days
Grievances	care@arogyashield.example	Working days

This handbook is reviewed every six months. Suggestions for improvement may be sent to the Head of Member Services.
